USER GUIDE

- ①. Piezo Ignition: Press down on the ignition button to ignite the torch.
- ②. Adjustable Precision Flame: Adjust the flame size by sliding the wheel on the back to the left or right.
- ③. Flame Lock: Secure or release the flame by pushing the button up or down.
- ④. Refilling Port: Refill the torch with any regular butane gas. Insert the tip vertically into the refill port for several seconds, then allow it to rest for an additional minute before use.

⚠ WARNING

Keep the item out of the reach of children. Do not touch the flame nozzle while in use. Wait patiently for it to cool down.

Never put the heated parts or the product in water. Allow it to cool down naturally. Do not store the product at Temperatures above 40°C(104°F). Make sure the flame lock is turned off when not in use.

When the product is used for soldering and similar applications, it produces chemicals known to the State of California to cause cancer and other reproductive harm.
